

# Aqua-Boy: KAOI

The KAOI is a highly accurate and portable moisture meter specifically designed for cacao and coffee manufacturing. With instantaneous analogue reading and compatible electrodes, this device has numerous applications for the agricultural and food processing industry.

## Technical Data

**Meter type:** moisture meter

**Measuring scale:**

- cacao: 4...18%
- coffee: 8...22%

**Additional scale:** none

**Accuracy:** +/- 0.1%

**Reproducibility:** 0.2%

**Display:** analogue

**Power supply:** 9v battery

**Products measured:** cacao, coffee

**Dimensions (WxHxL):** 115mm x 50mm x 170mm

**Recommended electrodes:** 202, 209 b

## Industry Usage

Agriculture, Food processing

## Ordering Data

KAOI

KAOI-set: moisture meter and 202 cup electrode

299-KAOI: calibration resistor
