

Aqua-Boy: TEFI

The TEFI is a highly accurate and portable moisture meter specifically designed for tea manufacturing. With instantaneous readings, a centesimal scale and compatible electrodes, this device has numerous applications for the agricultural and food processing industry.

Technical Data

Meter type: moisture meter

Measuring scale: 2...12%

Additional scale: centesimal

Accuracy: +/- 0.1%

Reproducibility: 0.2%

Display: analogue

Power supply: 9v battery

Products measured: tea

Dimensions (WxHxL): 115mm x 50mm x 170mm

Recommended electrodes: 202, 209 a, 209 b

Industry Usage

Agriculture, Food processing

Ordering Data

TEFI

TEFI-set: moisture meter and 202 cup electrode

299-TEFI: calibration resistor
