

Aqua-Boy: ZGMI

The ZGMI is a highly accurate and portable moisture meter specifically designed for citrus manufacturing. With instantaneous analogue reading and compatible electrodes, this device has numerous applications for the agricultural and food processing industry.

Technical Data

Meter type: moisture meter

Measuring scale: 6...20%

Additional scale: none

Accuracy: +/- 0.1%

Reproducibility: 0.2%

Display: analogue

Power supply: 9v battery

Products measured: citrus peel

Dimensions (WxHxL): 115mm x 50mm x 170mm

Recommended electrodes: 202, 207 a

Industry Usage

Agriculture, Food processing

Ordering Data

ZGMI

ZGMI-set: moisture meter and 202 cup electrode

299-ZGMI: calibration resistor
